

Cisco **Partner Virtual Team**: For internal and partners to receive updates and roadmaps from the BUs on the solutions and technologies being developed.

AI: (Day 1)

Secure AI Factory (Core Offerings):

Cisco AI POD:

- NVIDIA AI Software
- Kubernetes Platform
- Cisco AI Networking
- Cisco Compute w/NVIDIA
- Partner Storage

Cisco Security:

- Cisco AI Defense
- Cisco Isovalent
- Cisco Secure Firewall
- UCS Confidential Computing
- *NetApp, Pure Storage, etc.*

Splunk:

- Splunk Enterprise Security
- Splunk Observability

AI Defense:

- **Explorer:** Entry-level AI Defense, Monthly Free Validation runs, Standard and custom goals, Validation only, No enterprise support.
- **Enterprise:** AI Runtime Guardrails, Event monitor, AI Validation, AI Supply Chain Mgmt.
 - **Licensing options:** AI Runtime, AI Validation, Advantage
 - **Deployment Options:** SaaS, Hybrid, Secure AI Factory

Splunk Observability:

- **AI Agent Monitoring:** Monitor perf., quality, security, cost of LLM & agentic apps (GA)
- **AI Infrastructure Monitoring:** Monitor health, availability, and consumption of AI (GA)

Hybrid Mesh Firewall & Secure Access: (Day 2)

Hybrid Mesh Firewall:

- **Global Navigation:** Aligning to Security Cloud Control (FMC 10.0)
- **Splunk Config on FMC:** Wizard at *Integration > Splunk* page on FMC UI (FMC 10.0)
- **Dynamic Firewall:** Associate identity source with identity intel for trust scores (FMC 10.0)
- **Agentic Ops for Firewall:** Support insights for on-premises and cdFMC (GA)
- **Upgrade planner:** Compare with latest & show CVE fixes and advancements (GA)
- **Capacity and Trend Analyzer:** Predictive health monitor to forecast issues (2HCY26)

Secure Access:

- **Umbrella to Secure Access Migration:** Policy migration in less than an hour (GA)
- **RAVPN Import Tool:** migration for customers migrating from ASA (GA)
- **Endpoint DLP:** Monitor and control flow of sensitive data to prevent data loss (GA)
 - **Scan and block:** USB Storage, Net & Bluetooth Shares, Clipboard - Win (GA), Mac (Soon)
- **Cisco SASE with Meraki:** Build AutoVPN tunnels to SSE from Networking Cloud (GA)
- **Secure Access MSP:** Central Policy management implicit sharing (GA – Feb 2026)
- *Much more...*

Duo & Identity:

- **Standards-aligned MCP Support:** Duo SSO will support OAuth 2.1 (Beta)
- **AD Visibility in CII:** Full visibility into on-prem and hybrid AD environments (Beta)

Hypershield, XDR & ISE: (Day 3)

Hypershield:

- **Secure Workload will evolve to Hypershield:** Supercharged enforcement points (Smart Switch, Combined agent), AI enhanced operations, Simple deploy (Future)

XDR:

- **Unified Threat Visibility with Cisco's MX & XDR Integration:**
 - IPS/IDS Events, Malware Events, Content Filtering, L7 FW Events (Future)
- **UX Unification:** Single, merged UX for traditional SCA and XDR capabilities (Future)
- **Secure Client Module:** Generate endpoint telemetry for analysis (Future)
- **Secure Client Module:** Advanced Forensics and DFIR capability module (GA)
- **Automated Forensics:** Trigger forensics before you know that you need it (Soon)

Identity Services Engine (ISE): (cs.co/ise-roadmap)

- **Session less Posture for Servers and VDI** (Future)
- **Continuous Endpoint Attribute Monitoring** (Future)
- **Integrations:** Nexus Dashboard, Cisco Identity Intelligence (Future)
- **Identity Pre-Shared Key management** (Future)
- **OpenID Support** (Future)
- *Many more...*

Third Party Partners:

Proficio:

- Managed Detection and Response, Managed Security Services
- Managed EDR, Threat Exposure Management, Managed SIEM

Red Sift:

- Brand Trust for defense against email, domain, and brand impersonation
- Cisco Domain Protection (CDP) provides full-spectrum digital identity protection

BlueCat:

- **Micetro DDI:** H/W solution that hosts & orchestrates DNS, DHCP & IPAM
- **Integrity's CD&V** identifies deployments to discover Shadow IT and rogue DevOps
