

Cisco Security / Services & Features:

Network

- **ASA & FTD (NGFW)**
 - Stateful FW
 - VPN Functions (IPSec & SSL) ***
 - **Firepower:**
 - AVC (*App Visibility & Control*)
 - IoC (*Indication of Compromise*)
 - File Control
 - Geo-based rules
 - NGIPS *
 - Security Intelligence
 - AMP (*Adv. Malware Protection*) *
 - URL *
 - VPN
 - SSL Decryption
 - DDoS protection w/3rd party **
- **FirePower (NGIPS)**
 - See list above
- **Web Security (WSA)**
 - On-site hardware or Cloud Proxy
 - Reputation based
 - Anti-Virus *
 - AMP *
 - Cognitive Threat Analytics
 - L7 AVC controls
 - Bandwidth throttling
 - DLP
- **Stealthwatch**
 - Behavior Anomaly Detection
 - Network Performance Monitoring
 - Netflow analytics

Cloud

- **AMP (Network)**
 - Continuous analysis
 - File Disposition
 - Retrospective security
 - IoC
 - ThreatGrid (analytics)
- **Email Security (ESA/CES)**
 - On-site hardware or Cloud
 - Reputation based
 - Spam protection
 - Graymail Detection & Safe Unsubscribe
 - Web Interaction Tracking
 - Outbreak Filters
 - DLP
 - AMP *
- **Umbrella (SIG)**
 - Block access to malicious sites
 - Identify already infected devices
 - Phishing and malware infections
 - AV & AMP
- **CloudLock (CASB)**
 - Cloud App security
 - Visibility & Control
 - Cloud DLP
 - Application FW

Endpoint

- **AMP (Endpoint)**
 - Continuous analysis
 - File Disposition
 - Retrospective security
 - IoC
 - ThreatGrid (analytics)
- **AnyConnect**
 - VPN Client & Clientless
 - Endpoint Compliance
 - Off-Network Protection
 - Centralized Policy Control
 - Umbrella Roaming
 - AMP

Access

- **Identity Services Engine (ISE)**
 - Identity & Access Control
 - Control Users & Devices
 - Device Profiling
 - AAA Services
 - Endpoint Posture Service
 - Rapid Threat Containment
- **Meraki MX (Cloud Managed)**
 - Stateful FW
 - MDM
 - AVC
 - Auto VPN
 - Web Cache
 - IPS *
 - AV & Anti-Phishing *
 - URL / Content Filter *
 - Geo-based rules *
 - AMP *

* Licensed feature

** FTD appliances only

*** FTD v6.2.2 (2100 v6.2.1)
