

Cisco Security **SEVT**: For internal and select partners to receive updates and roadmaps from the BUs on the solutions and technologies being developed.

Network Security:

Secure Firewall:

- **SecureX**: Orchestration Playbooks (v7.1 **January 2022**)
- **TLS**: Detect App & Malware w/o decryption (v7.1 **January 2022**)
- **WebAuthN**: for Duo passwordless, **Yubikey** support (v7.1 **January 2022**)
- **SecureX**: Easy onboarding (v7.2 **July 2022**)
- **Umbrella**: DNS connector support (v7.2 **July 2022**)
- **Cloud**: Azure & Alibaba support (v7.2 **July 2022**)

Cisco Defense Orchestrator (CDO):

- **Duo**: MFA for AnyConnect SSL VPN (v7.1 **January 2022**)

Cisco Secure Managed Remote Access (CSMRA):

- **Duo DNG**: Clientless private application access (**November 2021**)
- Identity based access to on-prem resources (**November 2021**)

Meraki MX:

- **Talos**: Content filtering (**MX17 Beta**)
- **IDS/IPS**: Snort3 Enhancements (**MX16 all MX besides MX64/65**)
- **AnyConnect**: Custom Server Certificates (**MX16.11**) Dashboard (**future**)
- **AnyConnect**: Dynamic Client Routing (**MX16.5**) Dashboard (**future**)
- **AnyConnect**: SAML Authentication (**MX16.11**) Dashboard (**future**)
- **Secure Group Tags (SGT)**: Transport (**MX17 Beta**) Enforcement (**future**)
- **IPv6 Security**: Outbound Firewall Rules (**MX17 Beta**)

Zero Trust:

Duo:

- **MFA**: Passwordless Single Sign-On (SSO) (**April 2022**)
- **MFA**: Duo 4 Mobile (**~January 2022**)
- **MFA**: Risk Based Auth (**~March 2022**)
- **DNG**: RDP support (**~April 2022**)

Secure Workload (formerly Tetration):

- **Public Cloud**: Azure support (v3.7 **future**)
- **Workflow**: First time user experience (v3.7 **future**)
- **Integrations**: Kenna, Talos threat feed etc. (v3.7 **future**)

Identity Services Engine (ISE):

- **AWS**: ISE on AWS Marketplace (v3.1 **Available Now**)
- **Azure**: MS Azure Cloud & OCI (v3.2 **~April 2022**)
- **DNA Spaces** integration (**~April 2022**)

Available | Targeted availability | Estimate

SASE/Cloud:

Cisco+ Secure Connect:

- **Phase 1**: Remote Worker – AnyConnect & SIG for SaaS traffic (LA: **November 2021**)
- **Phase 2**: SD-WAN – Secure Edge, Meraki & Viptela (**July 2022**)
- **Phase 3**: Secure Connect – Zero Trust, Clientless Remote Access (**future**)

Cloud Mailbox:

- **Talos Intelligence**: Advanced **Threat Detection** (**~December 2021**)
- **SecureX**: Ribbon integration (**October 2021**)

Cloud Secure Firewall Cloud Native (CSFCN):

- **Duo DNG**: Clientless access support (**December 2021**)
- **CNTD Service**: IDS/IPS functionality (**~February 2022**)
- **Azure & TLS**: Support (**June 2022**)

Umbrella:

- **DNS**: FedRAMP (GA **July 2022**)
- **DNS**: Talos category alignment (**~January 2022**)
- **DNS**: CloudSec App for Splunk (LA **future**)
- **DNS**: Tamper-proof Roaming Client (**~January 2022**)
- **SWG**: Web Policy Tester (**October 2021**)
- **CASB**: Simple Pattern Matching – RegEx (**~January 2022**)

XDR:

- **Secure Client (CSC)**: Unified Client release (**Beta-Nov 2021**)
- **Device Insights**: Contextual insights into endpoint devices. (**Beta – Nov 2021**)
- **Secure Cloud Insights**: Cloud Security Posture Management (**November 2021**)
- **Kenna Security**: Global Price List (**October 2021**)
- **Kenna Security**: SecureX Integration - Automated Workflows (**January 2022**)
- **SecureX Orchestration Remote**: Adapter for on-prem workflows (**Available**)
